Mr. Oscar Rangel, no address, (713)563-3221 appeared and stated that he is the Director of Operations Maintenance at MDA Cancer Center and he is a property owner and a resident of Lindale Park Subdivision Block 20 and Item 13 that is on the Agenda is a recommendation from the Director of Public Works and also the Joint Referral Committee declining the acceptance of 20 foot wide drainage easement on land that was never developed and the support of this recommendation of not acceptance would first and foremost correct a small oversight when the property was turned over to the City of Houston and it would also allow the property owners to apply for building permits and also maintain this area for some of the other property owners as a natural detention as they all know it is quite important here in Houston because of the flooding issues and finally what is in it for the City of Houston, the City of Houston will get an increase in their revenue by filing taxes on this piece of land and he wants to thank them in advance for their support in this recommendation.

Mr. Jorge Garcia, no address, no phone, had reserved time to speak but was not present when his name was called.

Ms. Lisa Yifrach, 810 Sue St., (713)884-0858 appeared and stated that she is also resident and owner of the Lindale Park Subdivision of 2 ½ lots that would be affected by the change for the consideration today and her family is looking for to this change and it will give she and her neighbors clear ownership of this land, it will allow them to enjoy and properly fence for security of the properties and maybe some would put in drainage since this easement was a ditch and it can still hold water and they still have to deal with mosquitoes and after receiving the notice from the City she walked her block and spoke to several of her neighbors to whom she does know well and they are all very happy to hear of this change, her home was built in 1988 by her grandparents, she is a 5th Generation Houstonian and her father played in this easement which her grandma called the ditch and she thanked them for this nonacceptance proposal.

Dr. Alkebu Motapa, 5022 Cosby, 77021, (713)741-5150 had reserved time to speak but was not present when his name was called.

Mr. Baby Phillip, 2330 Alassio Isle Ct., Missouri City, TX, 77459, (713)291-9721 had reserved time to speak but was not present when his name was called.

Mr. Edward Bracey, 9695 Twin Shores Dr., Willis, TX, 77318, (832)949-9130 appeared and stated that he had figured out a drainage plan you might say for the Addicks and the Barker dams and he thinks they should pump the water into the White Oak Bayou because for 3 weeks they were dry while everyone was flooded and he looked on a map of White Oak Bayou which actually goes out by the dog track and it is cemented all the way to Antoine, so the rest of it is natural and it is within miles to pump over to White Oak Bayou because again it was dry for 3 weeks and went back into its banks 4 days after Harvey and the rest of Houston was under water and he thinks it a real good idea on what he thinks and he spoke to Gary Norman and he liked his idea.

Ms. Paula McCann, no address, no phone, appeared and stated that she is here representing both Cigna and the Mayor's Go Health Houston Task Force and she came with colleagues in the audience that are from both organizations and most of the Council Members know that the first weekend in October they had their first Cigna Fall Sunday Street on Washington Street and thanked Council Member Kubosh for sharing a personal story with them and it was the first one since Harvey and it was wonderful to get out there, it was a sunny day and they needed that and seeing things get to normal and one of the things that Cigna and Go Health wanted to do take this opportunity to thank our leaders and their community and their Public employees who made such a difference during the Hurricane Harvey disaster and recovery and at the event they had a very large thank you card for everyone to sign and she presented it to City Council and thanked them for all they have done for the City.

Mr. Collin Leach, 1019 Trapper hill Dr., 77077, (832)452-3729 appeared and stated that he wanted to thank the Council for what they have done in the past months or so; that the flooding that occurred in the Memorial District is the opening of the Addicks and the Barker and these dams were built in the 40s and needed updated with Buffalo Bayou and in phase 2 of the project it was supposed happen but phase 2 was never built and in 1954 and 1955 the U.S. Army Corp of Engineering reported by pointing out the lack of local collaboration and they were left with a dam system with inaccurate drainage systems and Buffalo downstream by the Beltway 8 cannot hold up to a large flow and it just backed up and that is how they got the flooding in District G and the Army Corp of Engineers were between a rock and hard place, the dam levels were coming up and if they open the flood gates they would flood District G and if they didn't maybe the dams would burst or something worse and they probably did the right thing and that is his opinion and it was very unfortunately for District G and will another Harvey happen with research in the next 10 to 15 years yes we might get another Harvey, the conclusion is not 500 years, the conclusion is we need to do something about the drainage downstream of these dams which was planned in the 2nd phase but never built and doing nothing will be a repeat of Harvey. Mayor Pro Tem Cohen asked if there was anyone in the audience who would like to speak on this Item?

Ms. Tomaro Bell, no address, no phone, appeared and stated that when they have cancelled the Hearing for the other Public Hearing and she thought this one was also cancelled but she is glad that she was able to hear about it and so as far as the Bonds are concerned and as much as she read about them and she is still at a quandary when it comes to the Capital Improvement Bonds and she has spoken to many constituents and they are just as confused and she had spoken to the Mayor on whoever is running the campaign and as far as informing the voters on what this is about and they are not doing a good job and Jane expressed that and on the Bond languages as it is being present right now, especially the Pension one, most people believe that they are asking the citizens for the money for the Police and they do not understand that and it is a restructure of debit and there is nothing that is being done alleviate that and in addition to that on each Bond Proposal, it says on there when they vote to support this, that they agree to have their taxes increased to cover this Bond Debit because the rev cap was brought to their attention and some voters did not even know what it was about and she addressed this with Council Member Christie on Monday and most of the Super Neighborhoods spoke with him and when it comes to the Capital Improvement Bonds, a lot of people are concerned because it goes into the General Funds and why they should support this and why do they need this, it is not to help with the damaged to Harvey and it is not going to benefit their neighborhood.

Members of Council question Ms. Bell at length and Council Members invited Mr. Joseph Crawford from the Legal Department to answer questions of Members of Council.

Ms. Jane West, no address, no phone, appeared and stated that she was here because she has concerns about an article that was published in the paper today, that is saying that despite the Mayor having said that he was not going to invoke the disaster clause from the Revenue Cap ordinance and now he is and that seems counter to what he has told the public in the past and

she knows that they know she works with the communities groups and they are very concerned about transparency and they feel like there is a lack of transparency, they have questions about that and they have another question that is related to that which is that they met with the Mayor about 3 weeks ago when he was planning to increase the tax rate and they met with Kelly Dowe and they heard in that meeting that surprised them all, in the each of the 2 past years that the City invoked this disaster clause in order not to raise taxes and it sounds like this is going to be the 3rd time and they would like to clarify if that is really the case and if that is the cases then they have questions to the Controller too and they like to see the Controller raising the question in the paper today about a transparency issue and kind of flip flopping and they would like some questions to be clarified in moving forward and asked Members of Council to clarify before there is a vote.

Members of Council questioned Ms. West.

Mayor Pro Tem Cohen asked if there was anyone else who would like to speak on Item 1 on proposed propositions regarding the issuance of pension obligation bonds and public improvement bonds and seeing none, requested a motion to close the Public Hearing.

Mayor Turner stated that he wanted to address Item 23 and he wanted to lay down some context to this Item, he wanted to start by saying the current Tax Rate that we have been operating under for the past year is .58642, the proposed Tax Rate that Council had been asked to approve is .58642, it is the same Tax Rate that we have been operating on this past year and he wanted to established that so everyone is very clear and then he wanted to address the Memo that came to them on Monday and the Controller is saying that the Tax Rate should be .58441 which is the difference of .002 and gave an impression that this is not what they have done in the past when there was an emergency or a situation or storms in the past and they were given a handout on what had happened in the past and he wanted them to take a look at it on how Controllers have done in the past when they were dealing with emergency situations and he wanted to make this very clear that this whole thing started, he was proposing to go above the Tax Rate of .58642, all the way up to .63 and anytime that they want to go above the existing Tax Rates you have the Public Hearings and before the 2nd Hearing the Governor stepped in and provided the Grant of \$50 million dollars and at that time they have received that amount from the Governor, he indicated he was not going to exercise the emergency provisions to go above the current Tax Rate and as the result of him making that declaration, they were obligated to go back to make the 2nd Hearing and that Hearing lasted one minute and then that subsequent Wednesday they cancelled the 3rd Hearing because there was no need for the Public Hearing and with the Controller and the Interim Director they were trying to get on the same page for moving forward and that means how do they factor in the additional cost that is going to be incurred as it relates to Prop 1 and what he clearly indicated to the Controller and what he said to them for the purposes of setting Prop 1, they are not going to use the Emergency provisions to go above the current Tax Rate and to explained the letters that were used by the past Controllers and the current Controller to the Members of Council.

Members of Council questioned Mayor Turner and the City Attorney about the Tax Rate and tagging the Item, Mr. Lewis advised that the 60 days is up on Friday to provide a Special Meeting before Friday and not acting on this today is that they will go to the State Law default provision for what happens when Council does not acting within the 60 days.

Council Member Knox stated in order to comply with the voter 2004 Proposition 1 Charter Amendment and to comply with the City of Houston Charter Article III, Section 1, presented a written Motion to amend City Council Agenda Item Number 23 by substituting the attached drafted ordinance in lieu of the draft ordinance presently under consideration thereby decreasing the proposed combined Property Tax Rate from the current rate of \$.586420 to \$.584210 per \$100 valuation.
