<p>11.04 Withdrawn</p>	<p>M410009-301 – Briar Meadow (Phase II)</p> <p>Expedite the Phase II – Briar Meadow project by moving it from planned with current Atlas 14 and prioritizing for construction as funds become available in FY 2023.</p> <p>This project is the second phase of a 3 phase CIP from the 2015 CIP cycle. The neighborhoods aged drainage infrastructure and sidewalks have no received substantial improvements for the last ten years.</p> <p>Funds can come from the Storm Drainage System 2023-2027 Capital Improvement Plan, by reallocating funding currently identified for “Planning” to “Funded”.</p>	<p>Thomas (11)</p>
<p>13.01 Withdrawn</p>	<p>Prioritize and expedite the Northline Area to studied and updated to Atlas 14. Expand the Storm Drainage System Program to include the development of a comprehensive drainage master plan for the Northline Area, between I-45 and the Hardy Toll Road. This area has been identified by the Harris County Flood Control District as the most challenging location for addressing drainage issues in the entire city of Houston. The problem is that there are no large channels where water can be directed. Without a plan to guide development, unresolved drainage capacity issues will continue to compound and worsen, and will become increasingly expensive to resolve.</p> <p>Funds can come from the Storm Drainage System 2023-2027 Capital Improvement Plan, be reallocating funding currently identified for “Design”, and moving it to “Planning”:</p> <p>Project No. M-430100, Pre-Engineering for Storm Water Drainage, 4042-DDSRF CAPITAL FUND-DRAINAGE CHARGE, Project No. M-500001, Future Design, 4042-DDSRF CAPITAL FUND DRAINAGE CHARGE.</p>	<p>Cisneros (13)</p>
<p>13.02 Withdrawn</p>	<p>Prioritize and expedite the Eastex Jensen Area to be studied and updated to Atlas 14. Expand the Storm Drainage System Program to include the development of a comprehensive drainage master plan for Eastex Jensen, that includes a phased plan to connect stormwater draining off of Jensen Road into city drainage infrastructure. Jensen Rd remains the central corridor in the neighborhood and was originally built using the traditional highway drainage design, of water simply running off the road onto the ground next to it. There is no stormwater system in place that connects to city drainage infrastructure. The lack of adequate drainage infrastructure also limits the COH’s ability to mitigate the poor condition of the roadway.</p> <p>Funds can come from the Storm Drainage System 2023-2027 Capital Improvement Plan, by reallocating funding currently identified for “Design”, and moving it into “Planning”: Project No. M-430100, Pre-Engineering for Storm Water Drainage, 4042- DDSRF CAPITAL FUND-DRAINAGE CHARGE. Project No. M-500001, Future Design, 4042-DDSRF CAPITAL FUND DRAINAGE CHARGE</p>	<p>Cisneros (13)</p>

AGENDA – JUNE 29, 2022 - PAGE 10

<p>13.03 Withdrawn</p>	<p>Prioritize and expedite the Denver Harbor Area to be studied and updated to Atlas 14. Expand the Storm Drainage System Program to include the development of a comprehensive drainage master plan for Denver Harbor. Under-sized drainage infrastructure is overwhelmed by heavy rainfall, causing significant structural flooding in the New Addition neighborhood. Previously funded SWAT projects to regrade ditches, re-establish flow lines, and re-size culverts have been insufficient to correct drainage problems that are exacerbated by undersized drainage infrastructure at IH-10, and barriers created by railroad tracks.</p> <p>Funds can come from the Storm Drainage System 2023-2027 Capital Improvement Plan, by reallocating funding currently identified for “Design”, and moving it “Planning”: Project No. M-430100, Pre-Engineering for Storm Water Drainage, 4042- DDSRF CAPITAL FUND-DRAINAGE CHARGE. Project No. M-500001, Future Design, 4042-DDSRF CAPITAL FUND DRAINAGE CHARGE</p>	<p>Cisneros (13)</p>
<p>13.04 Withdrawn</p>	<p>Prioritize and expedite the Independence Heights Area to be studied and updated to Atlas 14. Expand the Storm Drainage System Program to include the development of a comprehensive drainage master plan for Independence Heights. The stormwater culverts located at the highways are severely undersized and are responsible for repeatedly trapping flood water in the neighborhood, effectively turning Independence Heights into a stormwater detention pond for neighborhoods downstream.</p> <p>Funds can come from the Storm Drainage System 2023-2027 Capital Improvement Plan, by reallocating funding currently identified for “Design”, and moving it into “Planning”: Project No. M-430100, Pre-Engineering for Storm Water Drainage, 4042- DDSRF CAPITAL FUND-DRAINAGE CHARGE. Project No. M-500001, Future Design, 4042-DDSRF CAPITAL FUNDDRAINAGE CHARGE</p>	<p>Cisneros (13)</p>
<p>13.05 Withdrawn</p>	<p>Prioritize and expedite the Historic Artis Warehouse District to be studied and updated to Atlas 14. Expand the Storm Drainage System Program to include the development of a comprehensive drainage master plan for the Historic Artist Warehouse District.</p> <p>Flooding continues to be the single greatest problem and most serious issue in Warehouse District, even during “routine” rain events. Current water capacity studies conclude that inadequate infrastructure cannot handle existing conditions, not to mention proposed future development. Without modernized storm water infrastructure, the area simply cannot accommodate heavy rainfall events.</p> <p>Funds can come from the Storm Drainage System 2023-2027 Capital Improvement Plan, by reallocating funding currently identified for “Design”, and moving it into “Planning”: Project No. M-430100, Pre-Engineering for Storm Water Drainage, 4042- DDSRF CAPITAL FUND-DRAINAGE CHARGE. Project No. M-500001, Future Design, 4042-DDSRF CAPITAL FUNDDRAINAGE CHARGE</p>	<p>Cisneros (13)</p>

AGENDA – JUNE 29, 2022 - PAGE 11

<p>14.01 Withdrawn</p>	<p>Houston Public Works shall allocate \$3.64 million in additional funding (utilizing operations and maintenance funds 2311, 2312, 4046, and/or Fund Balance) to the Quiet Zone and Railroad Safety programs for the “East End II Quiet Zone”.</p> <p>The Quiet Zone and Railroad Safety programs help enhance and upgrade railroad crossing safety required by the Federal Railroad Administration (FRA) to implement the Quiet Zone Program. Once approved by the FRA, a quiet zone allows residents to live without the constant disruption of passing train horns, thus improving the quality of life for those communities adjacent to increasingly busy railroad corridors.</p> <p>The “East End II Quiet Zone” will directly benefit communities in council districts I and H, as well as neighboring communities in districts B and C.</p>	<p>Gallegos (14)</p>
<p>14.02 Motion 2022-0349 - Adopt</p>	<p>Houston Public Works and the Planning & Development Department shall establish a working group in partnership with Metro, TxDOT, and Harris County, to evaluate and submit recommendations for future mobility improvements on Broadway Street, including the elimination of the traffic circle located at the intersection of Broadway Street and Interstate 45, as part of the METRORail extension to William P. Hobby Airport.</p>	<p>Gallegos (14)</p>
