SCOPE AND PURPOSE

We have completed a travel cost compliance audit of the Convention and Entertainment Facilities Department. The audit's objective was to determine if travel expenses were supported, computed, approved and reported in compliance with Administrative Procedure 2-5 and with departmental Policy on Client Entertainment. The audit scope period was from July 1, 2005 through June 30, 2006. The Department incurred approximately \$60,000 in training and non-training related travel expenses during this period.

The scope of our work did not constitute an evaluation of the overall internal control structure of the Department. Our examination was designed to evaluate and test compliance with Administrative Procedure 2-5 and with departmental Policy on Client Entertainment.

Department management is responsible for establishing and maintaining a system of internal controls to adequately comply with Administrative Procedure 2-5 and with departmental Policy on Client Entertainment. The objectives of an internal control system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or theft, and that transactions are executed in accordance with management's authorization and are recorded properly.

Because of inherent limitations in any system of internal accounting control, errors or irregularities may occur and not be detected timely. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions, or that the degree of compliance with procedures may deteriorate.

CONCLUSION

Based on the results of our audit, we conclude that the Department is in compliance with Administrative Procedure 2-5 and with its own departmental Policy on Client Entertainment. Several non-reportable issues were communicated to the Department's management for corrective actions.
