**CITY OF HOUSTON**  
**QUARTERLY INVESTMENT REPORT**  
**Executive Summary**  
**For the Quarter Ended September 30, 2024**

The accompanying Quarterly Investment Report lists in summary form and in detail the investment positions of the City of Houston investment pools as of September 30, 2024. As of that date, the City held total investments with a market value of \$5.6 billion. The majority of these funds, with the exception of about \$16 million that must be segregated per federal mandates, are held in the City's General Investment Pool. The General Investment Pool consists of working capital, construction funds, and debt service funds not subject to yield restriction under IRS arbitrage regulations. All investments are governed by state law and the City's Investment Policy, which dictates the following investment objectives, in order of priority:

1. Safety
2. Liquidity
3. Return on Investments
4. Other Legal Requirements

Approximately 53.7% of the City's holdings are currently invested in United States Treasuries. Other investment sectors include 15.5% allocation to US government-sponsored enterprises such as the Federal Home Loan Bank, Fannie Mae, Freddie Mac, and Farmer Mac, 5.2% to municipal notes and bonds, 14.5% to commercial paper, 7.4% to high grade money market fund, and 3.7% to mortgage-backed securities.

The weighted average maturity of the City's investments has historically ranged from about one year up to two years. The weighted average maturity is currently 1.49 years. From an operating standpoint, 28% of the funds invested are designated to be spent on capital projects such as roads and bridges, the water and sewer system and the airport system. Investment maturities are targeted to coincide with planned expenditures. Other investment maturities are targeted to meet short-term obligations such as payroll and debt service payments.

Fitch Ratings has assigned its AAAf credit rating and S1 volatility rating to the General Pool. The AAAf credit quality rating is the highest rating available from Fitch Ratings and reflects the extremely strong protection that the Pool's portfolio investments provide against losses from credit defaults or credit deteriorations. The S1 volatility rating recognizes the Pool's sensitivity to changing market conditions as a result of its low market risk profile and conservative investment policies.

As of September 30, 2024, the General Investment Pool was yielding 3.738% based on the amortized cost of the portfolio.

The General Pool consists of all working capital, construction, and debt service funds which are not subject to yield restriction under IRS arbitrage regulations. Combining the net cash-flows of all funds allows the City to invest in longer-term, higher-yielding securities without sacrificing the ability to meet short-term cash needs. The General Pool strategy, as outlined in the City's Investment Policy, combines a variation on the traditional laddered maturity strategy which matches assets and liabilities, with more active management strategies, such as yield curve analysis and bond swaps.

For the quarter ending September 30, 2024, the 3-month average yield was 3.776%. The weighted average maturity (WAM) as of September 30 was 544 days.

Fitch Ratings

Fitch Ratings has assigned its AAAf credit rating and S1 volatility rating to the General Pool. The AAAf credit quality rating is the highest rating available from Fitch Ratings and reflects the extremely strong protection that the Pool's portfolio investments provide against losses from credit defaults or credit deterioration. The S1 volatility rating recognizes the Pool's sensitivity to changing market conditions as a result of its low market risk profile and conservative investment policies.

The Tax Exempt Pool consists of those funds which are subject to yield restriction and arbitrage regulation under the 1986 Tax Reform Act. This pool was created to do the following: demonstrate compliance with Internal Revenue Code regarding arbitrage, maximize the amount of interest earned and retained by the City from the investment of funds subject to the regulations, minimize the amount of rebate liability, and minimize the cost of administering the arbitrage tracking program. The Tax Exempt Pool strategy, as outlined in the City's Investment Policy, is to invest in high quality, short-term municipal bonds and one or more tax-exempt money market mutual funds in order to meet the liquidity demands of the City.

For the quarter ending September 30, 2024, the 3-month average yield was 3.205%. The WAM was 243 days at September 30, 2024.
