RE: Letter of Support for Harris County Precinct 4's Call for Partnership Projects – Energy Corridor's Park Row-N. Dairy Ashford Multi-Modal Connectivity Project

Dear Mr. Guajardo,

As a representative of Houston City Council, I am proud to support The Energy Corridor District's (District) Park Row-N. Dairy Ashford Multi-Modal Connectivity Project that will be submitted to Harris County Precinct 4's "Places 4 People Call for Partnership Projects." The submitted project represents critical mobility improvements at intersections listed on the High Injury Network, as well as provides mobility infrastructure to access transit, schools, housing, trails, and places of employment.

The project represents a commitment by the District and Harris County Precinct 4, along with partners at the City of Houston and TXDOT to create connections to support local and regional multi-modal transportation options, while creating a more friendly environment for vehicular traffic, pedestrians, and cyclists. Some of the project features include:

- Continuous sidewalks and/or sidepaths from State Highway 6 and Park Row/N. Dairy Ashford to Memorial Drive and Dairy Ashford improving safety, mobility, access, and a critical connection to access regional trails.
- Improvements to six intersections, two of which are major intersection re-designs that would improve the safety of motorists, pedestrians, bicyclists, and transit riders in the area.

I support the District's pursuit to implement this project to create safer roads for all users. As such, I appreciate your consideration to fund this effort as part of the current call for partnership projects.

Warm regards,
