RE: Hermann Park Conservancy - Northeast Connectivity Mobility Improvements Project

Dear Representative Green, ,

I am pleased to support Hermann Park Conservancy's Northeast Connectivity Mobility Improvements Project in response to the current Community Project Funding requests.

The updated Hermann Park master plan, adopted by the City of Houston in 2017, addresses many connectivity improvements throughout the park, including parking access and pedestrian safety through the introduction of off-street multimodal connections.

Hermann Park serves as a major component connecting Downtown, Midtown, Museum Park, and the Texas Medical Center. This project aims to enhance connectivity and reduce congestion within the park while benefiting trademark destinations such as the Houston Museum of Natural Science, McGovern Centennial Gardens, and Miller Outdoor Theatre.

Thank you for your consideration,
