Re: FY26 Community Project Funding – Civic Core Campus Project Request

Dear Congresswoman Fletcher,

I am pleased to support the Civic Core Campus Project – a project designed to support Houston’s Gulfton community through the provision of a structured parking facility and resilience hub. The project will create a robust Civic Core Campus upon the site which currently houses the City of Houston Southwest Multiservice Center. The funding components within this request will support emergency operations uses of the facility and the distribution of supplies during all hazard events. Further, the facility will support WIC, public health, and other related operations at the Multi-Service Center.

I appreciate the FY25 Community Project Funding allocated towards this project and your support in FY25. I hope you can continue to support this project.

Sincerely,

A handwritten signature in blue ink that reads "Sallie Alcorn".
