

HPD Records Management System Contract Extension PSHS Presentation

Date: November 18, 2021

Mike Bell, HPD CTO

HPD Records Management System (RMS)

- RMS is a core system for HPD for incident reporting
 - One of HPD core enterprise systems
 - Interfaces with city Computer Aided Dispatch system
 - Interfaces with District Attorney office to file charges
- City of Houston entered into a multi-year contract with Tiburon for a new RMS on 5/8/2009
 - Lengthy implementation, went live in FY14
 - Original contract was for 8 years, \$35-\$40M
 - Existing contract expires 5/14/2022

Request Contract Extension

- HPD is requesting a one-year contract extension
 - New national RMS standards were published in May, 2021, are being incorporated into RFP requirements.
 - Extension allows HPD sufficient time to align new system requirements as identified by HITS for citywide CAD procurement.
 - Current contract has sufficient funding to cover additional year, budgetary allocation ~ \$1.5M
 - HPD planning to publish RFP for new RMS in January, 2022
 - Allows sufficient time for RFP evaluation, award, and implementation

NEXT STEP

Council Action seeking approval for one year contract extension on current contract.
